Description of Data Elements

This section contains an alphabetical listing of all the data elements that will be reported by school districts, followed by a definition page for each data element. The pages are presented in data element ID sequence. A description of the information found on each definition page is as follows.

Information	Description
Data Element ID	Data element reference number in the form "E----"
Name	Name of the data element
Date Issued	Date the element was added to the PEIMS database
Date Updated	Date of the last change to the data element
Definition	Meaning of the data element
Code Table ID	Reference number of the table that lists the valid codes, if any, for this data element. It has the form "C---".
Domain of Values	The acceptable values for the data element
Special Instructions	Additional edit criteria for the data element, when applicable
Length	Length of the data element in characters
Type	<p>A data element is specified as one of the following:</p> <p>Numeric</p> <ul style="list-style-type: none"> • a string of numeric characters • right-justification of the value is required • the area to the left of the value must be filled with zeroes • when the number is negative, the sign must be over-punched in the rightmost digit of the value • if decimal precision is required by the definition of a specific element, the decimal point is an implied position in the number. No decimal point is allowed. <p>Name Field</p> <ul style="list-style-type: none"> • any of the following characters, in addition to the space character: • ABCDEFGHIJKLMNOPQRSTUVWXYZ0123456789 ~ ! @ # \$ % ^ & * () - _ + = : ; " ' , . / < > ? • left-justification is required • the area to the right of the value must be filled with blanks <p>Coded</p> <ul style="list-style-type: none"> • a string of upper case alphanumeric characters of fixed length • if a value is present, it may not contain blanks • in most cases, the coded value is found in a code table; however, such elements as DATE-OF-BIRTH, and STUDENT-ID do not have an associated code table

Section 3: Description of Data Elements

Information	Description	
Pattern	The edit mask for the data element which is used in computer processing	
	Symbols found in 'Pattern' are as follows:	
	Symbol	Restriction on Value
	*	any of the characters accepted in the name field data type
	^	implied decimal point
	...	pattern continues without change
	#	numeric characters "0" through "9"
	mm	month
	dd	day
	yy/yyyy	year
	HH	hour
MM	minute	

An entry of all blanks is used when the value of a field in a given record is not applicable.

A field of zero(es) represents a coded value found in a code table or a zero value. It may **not** represent a non-applicable field.

When reporting BUDGET-AMOUNT and ACTUAL-AMOUNT, all revenues, expenditures, and fund balances are shown as unsigned positive numbers. In rare cases, some accounts may need to appear as negative numbers, such as when a deficit fund balance occurs. In ASCII data, a negative number is represented by changing the last digit in the number to one of several character symbols. The symbols indicate the last digit of the number and that the entire number is negative. For example, ASCII uses the dollar sign (\$) to indicate that the last digit is an integer 4 and that the entire number is negative. Thus, the number -1234 is saved in ASCII as 123\$. PEIMS will convert these symbols to the correct negative numbers.

A	<p>The Student Resides In A Facility For The Neglected, Attends A Non-Title I Campus, And Receives Title I, Part A Services Through A Title I; Part A Program That Is Run Through The Central Administration Office.</p> <p>“Neglected” students are those who reside in a public or private residential (children are under 24-hour care) facility that is operated primarily for the care of children who have been committed to, or voluntarily placed in, the facility because of abandonment, neglect, or death of parents. These students are coded as “A” if they do not attend a schoolwide or targeted assistance campus. Such students who attend a Title I campus would be coded “6,” or “7,” as appropriate; if they attend a non-Title I campus or if the district provides instructional services to the student at the facility, they should be coded “A.” LEAs would only code students as “A” in one of the following circumstances:</p> <ul style="list-style-type: none"> • The LEA received a “neglected share” as part of its Title I, Part A entitlement and provided Title I, Part A services to one or more neglected students attending a non-Title I campus; or • The LEA may not have received a “neglected share,” but a facility for the neglected opened within the LEA’s boundaries since the last October survey of facilities for the neglected was conducted. In this case, the LEA would report the address of the facility to the Division of Formula Funding at TEA so that a survey would be generated for that facility during the next survey period. If a student residing in this facility attended a non-Title I campus and the LEA provided Title I, Part A services to the student, the LEA would code the student as “A”.
