## STAAR END-OF-COURSE REPORTING STUDENT DATA FILE FORMAT

## Overview

All STAAR data for end-of-course (EOC) assessments will be reported on the same data file. There will be one record on the data file for each subject for which a student is assessed. Following is a list of the most significant changes being implemented in 2017.

1. Layout Expansion: The layout has been expanded from 1000 bytes to 2000 bytes.
2. Other Student Information: The FALL 2016 PEIMS MILITARY-CONNECTED-STUDENT-CODE has been added. See position 165.
3. Student Performance Standards and Performance Level Results: Level II passing standards have been reduced to 2 standards. See position 387 and positions 392-399. Performance Level Results have been updated as Approaches Grade Level at Student's Standard, Meets Grade Level and Masters Grade Level. See positions 389391.
4. STAAR L and STAAR A: STAAR L and STAAR A test versions are no longer valid for the spring 2017 administration and onwards.
5. Test Accommodation Information: Additional accommodations, including Text-To-Speech, Language and Vocabulary Supports and Content Supports, are added. See positions 258-260. In addition, Oral Administration and Linguistic Accommodations are removed. See position 255 and 257.
6. Short Answer Items (Single Selection and Pair selection) are removed for English I, English II, and English III. See positions 371-372 and assessment score information update.
7. Previous-Year English I First-Time/Retester: The First-Time/Retester indicator has been added to assist with the calculation of the progress measure for English II test takers. See position 412.
8. Percentile: Percentile is added indicating the student scored the same or better than this percentage of all students who took this test in Texas in the prior year. See positions 635-637.
9. Expanded STAAR EOC Cumulative History: The STAAR EOC Cumulative History section has been expanded to include additional historical data and moved to begin in position 1001. Several fields have also been reordered for ease of reading. The following data (for all subjects, except where noted) will be populated beginning in the fall 2017 administration reporting student data file. The exception to this will be "Meets Grade Level" which will be populated beginning in the spring 2017 administration reporting student data file. Data will only be provided for administrations in 2017 and onward. These fields will be blank for administrations in 2016 and older.

- Meets Grade Level
- Reporting Category Scores
- Raw Score
- Written Composition Score (English I and English II only)
- STAAR Progress Measure (Algebra I and English II only)
- ELL Progress Measure
- Percentile

NOTE: The data will be provided in a fixed-length text file format with the layout defined below. The file extension will be .txt.

| Total Points Possible | 8 | 13 | 13 | 16 | 9 | 9 | 68 |

** The STAAR written composition score is weighted by two. A score of 8 would yield a maximum score of $8 \times 2=16$.

## REPORTING CATEGORY SCORES

Number of items correct/points achieved by reporting category.
BLANK

RAW SCORE
The STAAR raw score for Algebra I, Algebra II, biology, and U.S. history assessments is the total number of items the student answered correctly.

The STAAR raw score for English I, English II, and English III is calculated by adding the number of multiple-choice items answered correctly and the weighted written composition score (weighted by two). \{Number of multiple-choice items + (written composition score * 2 ) \}.

If a student has 41 of the 52 multiple-choice items correct and a score of 6 on the written composition, the student's total raw score will be 53 out of 68 possible raw score points $\{41+(6 \times 2)\}$.

## STAAR EOC CUMULATIVE HISTORY

The STAAR EOC cumulative history data provided is from the administration with the highest scale score (where the score code is an " S ") or, if the student has not passed, the result from the last time a document was submitted for the subject. Because students who previously took STAAR Modified are required to meet the requirements set by the Admissions, Review, and Dismissal (ARD) committee, those results are not included in the Cumulative History section.

The following data (for all subjects, except where noted) will be populated beginning in the fall 2017 administration reporting student data file. The exception to this will be "Meets Grade Level" which will populated beginning in the spring 2017 administration. Data will only be provided for administrations in 2017 and onward. These fields will be blank for administrations in 2016 and older.

- Meets Grade Level
- Reporting Category Scores
- Raw Score
- Written Composition Score (English I and English II only)
- STAAR Progress Measure (Algebra I and English II only)
- ELL Progress Measure
- Percentile

## English I

Prior to spring 2014 English I was composed of English I reading and English I writing and results were reported separately. For purposes of cumulative history reporting, student results prior to spring 2014 for English I have been reviewed to determine if a student met the graduation requirements under the rules in place prior to spring 2014.

For English I those requirements are: a scale score in reading of 1813 or higher, a scale score in writing of 1798 or higher, and a combined reading and writing scale score of 3750 or higher. If those requirements are met, a value of ' 1 ' will be present for Level II. If the student achieved Level III in both reading and writing then a value of ' 1 ' will be present for Level III. The scale score value will be the sum of the English I reading scale score and the English I writing scale score. If the student has not yet met the graduation requirement and has not tested after 2013, the scale score will be blank.
